

## 75 References to Review

### *Aggregate Results Table Generated by Claude Haiku 4.5*

Three quiz result tables were aggregated and sorted by correctness (0% at top, 100% at bottom), with ties broken by highest wrong count first. This helped me to prioritize my last cram sesh before the exam.

| #  | Reference                                               | Correct | Wrong | Correctness | Exam?         |
